I may be alone, but sometimes I like to take a break from FPS games and take total control of the battlefield with some RTS play. For those of you who don't know what RTS is, it's where you play the commander and control all of your forces on the ground. One of the upcoming RTS games is the next installment of the Command & Conquer series, C&C 4: Tiberian Twilight. Here's some behind-the-scenes footage of the game's development. C&C4 will be released in March 2010.
